Conditional and Multivariate Distributions

Part I – Statistics Foundation for ML

Omid Safarzadeh

This chapter isn't written yet

The written-out chapter is still to come. In the meantime the original lecture slides are in the `source_slides/` folder next to this file, and you can work from them today. The topics they cover are listed below.

Slides: `source_slides/STAT4ML_Slide_4__Multivariate_Dist_.pdf`*, exactly as taught.*

Planned topics

- Joint and marginal distributions
- Conditional distributions and independence
- Bivariate transformations
- Hierarchical models and mixtures
- Bivariate normal distribution
- Multivariate distributions
