Logistic, Ridge, Lasso Regression

Part II – Introduction to Statistical Learning

Omid Safarzadeh

This chapter isn't written yet

The written-out chapter is still to come. In the meantime the original lecture slides are in the `source_slides/` folder next to this file, and you can work from them today. The topics they cover are listed below.

Slides: `source_slides/Chapter_3__Regularization.pdf`*, exactly as taught.*

Note: the slides above are titled 'Regularization' and cover logistic regression and ridge; Lasso is part of this chapter's scope but is not yet covered by them.

Planned topics

- Logistic regression
- MLE for simple logistic regression
- Regularization
- Ridge regression
- Bias-variance tradeoff
- Pros and cons of ridge regression
