# Clustering

Part II – Introduction to Statistical Learning

Omid Safarzadeh

## This chapter isn't written yet

The written-out chapter is still to come. In the meantime the original lecture slides are in the `source_slides/` folder next to this file, and you can work from them today. The topics they cover are listed below.

*Slides:* ***`source_slides/Chapter_8__Clustrering.pdf`****, exactly as taught.*

*Note: the slide deck above is named 'Chapter_8__Clustrering.pdf' – that is the original course's numbering, which drifted from the topic order used here.*

## Planned topics

- Clustering
- K-means
- Gaussian mixture models
- DBSCAN
